On behalf of the board (the "Board") of directors (the "Directors") of Feishang Anthracite Resources Limited (the "Company"), I present the unaudited interim results of the Company and its subsidiaries (the "Group") for the six months ended 30 June 2014.

BUSINESS REVIEW

The macro economy in Mainland China slowed down its pace of growth in the first half year of 2014, and the gross domestic product growth rate fell to 7.4% year on year. The coal market in the People's Republic of China ("PRC") was in oversupply owing to multiple factors, such as a slowdown in economic growth which constrained the growth of domestic coal demand, the rapid development of production capacity, a rise in coal imports and the energy restructuring implemented by the government. Coal price lingered at low levels and China Coal Price Index fell by 16.6% in the first half year of 2014.

The outlook for Guizhou coal market in which the Group located was not optimistic either. Although the coal price in Guizhou was affected by the surrounding coal market in the first quarter of 2014, the seasonal increase in demand for thermal coal helped restrain the fall in the coal price. However the overall coal price in Guizhou dropped sharply in the second quarter of 2014 and the purchase price of major power plants declined by 15% to 20%, because of the recovery of coal supply and an increase in hydropower as a result of the abundant rain. In the meanwhile, Guizhou province carried out desulfurization and denitration transformation in coal-fired units in order to strengthen environmental protection, thus limiting the coal demand for power plants and resulting in inventory pile-up and coal price declining. As a consequence of the negative impact of the thermal coal market, the sluggish growth of chemical raw materials demand caused by a slowdown in economic growth and the decline of chemical coal price in response to the fall in thermal coal price, Jinsha lump anthracite price in Guizhou province decreased by approximately 16%.

Two coal mine accidents unrelated to the Group occurred in Liuzhi Special District, Guizhou province, the PRC in May and June 2014, so the production of all coal mines in Liuzhi Special District (including Liujiaba Coal Mine and Zhulinzhai Coal Mine) was temporarily suspended as required by the local regulatory authorities to facilitate inspection. The production of Dayuan Coal Mine was also suspended immediately to carry out rectification or improvement of certain safety deficiencies so as to ensure its mining operations are in compliance with the requisite safety standards and other conditions. In addition, as disclosed in the listing document of the Company dated 31 December 2013 (the "Listing Document"), the operation of Gouchang Coal Mine had been suspended since March 2013. The permitted annual production capacity of the four temporarily suspended coal mines, namely Liujiaba Coal Mine, Zhulinzhai Coal Mine, Dayuan Coal Mine, and Gouchang Coal Mine, in aggregate accounted for approximately 42% of the Group's total permitted annual production capacity. The aforesaid temporary suspension of productions adversely affected our business, financial position and results of operations in the first half year of 2014, despite the positive contribution of Yongsheng Coal Mine. The adverse effect of the temporary suspension would continue as long as such suspension of productions remains in place.

In addition, the Guizhou government has introduced a number of measures to encourage the consolidation of the coal mining industry and announced plans to eliminate small-scaled coal mines in Guizhou province with an annual production capacity of below 300,000 tonnes for each single mine, reduce the total number of coal mining enterprise groups in Guizhou province to below 100, and reduce the total number of coal mines in Guizhou province to approximately 1,000 by 2015. On 6 June 2014, Guizhou Feishang Energy Co., Ltd. ("Feishang Energy") was officially designated as a coal mine consolidator in Guizhou province. As disclosed in the Listing Document, the Company's indirect wholly-owned subsidiary, Guizhou Puxin Energy Co., Ltd. ("Guizhou Puxin") as an affiliated entity of Feishang Energy, will be deemed as a coal mine consolidator. The consolidation, to some extent, could resolve the problem of overcapacity, enable the production capacity to be better adjusted by the market force, and promote the production capacity of the whole industry to achieve an appropriate balance. Also, its role as a coal mine consolidator could consolidate the strength and position of the Group in Guizhou province and could put the Group in a favourable position in the process of the merger and reorganization.

Despite the hostile external economic environment, the Group managed to pay close attention to safety production, tap the potential in management and make full use of the existing production capacity. Owing to the commencement of commercial run of Yongsheng Coal Mine in February 2014, the Group's total sales volume amounted to 631,075 tonnes and the total gross profit amounted to CNY48.8 million in the first half year of 2014, representing an increase of 236.7% and 230.7%, respectively as compared to the same period last year. In addition, the construction of Jinsha shipping port has begun, and the constructions of Jinsha coal washing plant and Dayun Coal Mine have been proceeding. All these developments have laid a good foundation for the Group for increasing production capacity, providing diversified product mix, improving product competitiveness, and reducing transportation cost.

SUMMARY OF EXPLORATION, DEVELOPMENT AND MINING ACTIVITIES

- > There was no exploration activity for the Group for the six months ended 30 June 2014.
- For the details of capital expenditure in connection with mining activities, please refer to the Summary of Mine Properties as set out on page 45 of this report.
- The estimated construction cost of the development project Dayun Coal Mine was approximately CNY342.3 million. The construction cost incurred for Dayun Coal Mine for the six months ended 30 June 2014 was approximately CNY72.2 million. The total cost incurred for this development project was approximately CNY221.8 million or 64.8% of the total budget as of 30 June 2014. Dayun Coal Mine is expected to commence the pilot run production in early 2015.
- As at 30 June 2014, the total proved and probable reserve of the seven coal mines under Australian Code prepared by the Joint Ore Reserves Committee (the "JORC Code") was 207.62 million tonnes (calculated as if all the seven coal mines were wholly owned by the Group and adjusted by deducting those reserves extracted by the Group's mining activities from 1 August 2013 to 30 June 2014). For details, please refer to the Summary of Mine Properties as set out on page 45 of this report.

FINANCIAL REVIEW

Revenue

The Group's revenue increased by 216.8% from CNY54.7 million for the six months ended 30 June 2013 to CNY173.3 million for the six months ended 30 June 2014. The increase was mainly attributable to the commercial run of Yongsheng Coal Mine. The sales volume surged from 187,432 tonnes for the six months ended 30 June 2013 to 631,075 tonnes for the six months ended 30 June 2014, representing a rise of 236.7%. However, the average selling price of anthracite coal slightly decreased from CNY291.9 per tonne for the six months ended 30 June 2013 to CNY274.7 per tonne for the six months ended 30 June 2014 due to the downward pressure on domestic economy and coal market.

Cost of Sales and Unit Production Cost

The Group's cost of sales for the six months ended 30 June 2014 was CNY124.5 million, representing an increase of CNY84.5 million, or approximately 211.7%, as compared with CNY40.0 million in the corresponding period in 2013. This was mainly due to the rise in sales volume for the six months ended 30 June 2014.

Labour costs during the six months ended 30 June 2014 were CNY53.2 million, representing an increase of CNY35.4 million, or approximately 199.6%, as compared with CNY17.8 million in the corresponding period of 2013. The increase in labour costs was lower than the rise in the sales volume of the Group's anthracite products during the six months ended 30 June 2014 because, as production expanded, the Group's mine operation started to realize economies of scale.

Material, fuel and energy costs during the six months ended 30 June 2014 were CNY25.1 million, an increase of CNY13.9 million or approximately 124.6% as compared with CNY11.2 million in corresponding period of 2013. The increase in material, fuel and energy costs was lower than the rise in the sales volume of the Group's anthracite products during the six months ended 30 June 2014 as the Group's mine operation started to realize economies of scale.

Depreciation and amortisation during the six months ended 30 June 2014 were CNY30.5 million, representing an increase of CNY25.0 million, or approximately 453.2%, as compared with CNY5.5 million in corresponding period of 2013. The higher increase in depreciation and amortisation during the six months ended 30 June 2014 was caused by the larger depreciable basis arising from the transfer of construction in progress to property, plant and equipment subsequent to the commercial run of Yongsheng Coal Mine, as well as the increase of production volume which led to higher depreciation of mining related assets by using units-of-production method.

Sales tax and levies during the six months ended 30 June 2014 were approximately CNY13.6 million, an increase of CNY9.0 million or approximately 195.9% as compared with CNY4.6 million in corresponding period of 2013. The increase in sales tax and levies was lower than the rise in the sales volume of the Group's anthracite products during the six months ended 30 June 2014 as the Coal Price Adjustment Fund Management Committee of Guizhou Province reduced the price adjustment fund in Guizhou by CNY10 per tonne since August 2013.

The following table set out the unit production cost of the Group:

	For the six months ended 30 June			
Cost Items	2014	2013		
	CNY/tonne	CNY/tonne		
Labour costs	84.9	100.7		
Materials, fuel and energy	40.4	62.3		
Depreciation and amortisation	49.1	30.9		
Other production-related costs	3.3	5.6		
Total production cost	177.7	199.5		

Gross Profit and Gross Margin

As a result of the foregoing, the gross profit increased by 230.7% from CNY14.8 million for the six months ended 30 June 2013 to CNY48.8 million for the six months ended 30 June 2014. The gross margin only slightly increased from 27.0% for the six months ended 30 June 2013 to 28.2% for the six months ended 30 June 2014. This was mainly attributable to the lower labour and materials costs, but the positive effect was, to a large extent, offset by the lower coal selling price as a result of the current sluggish coal market.

Loss Attributable to the Owners of the Company

The loss attributable to the owners of the Company for the six months ended 30 June 2014 was CNY125.4 million, a drop of CNY 96.5 million from the loss of CNY221.9 million for the six months ended 30 June 2013. This was mainly attributable to (i) the CNY118.0 million reduction in impairment loss of coal mine from CNY184.4 million for Gouchang Coal Mine to CNY66.4 million in connection with the temporary suspension of Dayuan Coal Mine for the six months ended 30 June 2014; (ii) the increase of CNY34.1 million in gross profit resulting from the increase in sales volume; and (iii) the decrease of CNY12.8 million in administrative expenses resulting from the decrease in expenses related to the preparation for the listing of the Company on The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange"); notwithstanding a decrease of CNY33.7 million in income tax benefit and an increase of CNY31.1 million in finance cost as a result of the rise in interest-bearing borrowings for the six months ended 30 June 2014.

FINANCIAL RESOURCES REVIEW

Liquidity, Financial Resources and Capital Structure

As at 31 December 2013 and 30 June 2014, the Group had net current liabilities of CNY1,168.2 million and CNY1,692.4 million, respectively. All the borrowings are denominated in CNY. The Group has not engaged in any foreign currency contract to hedge the potential foreign currency exchange exposure. The Group intends to fund the cash requirements with additional short-term and long-term bank and other borrowings.

As at 30 June 2014, the Group had cash and cash equivalents of approximately CNY92.2 million.

The interest-bearing loans consist of short-term and long-term bank and other borrowings. As at 30 June 2014, the total outstanding amount of the Group's short-term bank and other borrowings and the current portion of the Group's outstanding long-term bank borrowings were CNY1,557.7 million. The Group had total outstanding long-term bank borrowings are guaranteed by Mr. LI Feilie (the chairman and chief executive officer of the Company) and/or companies controlled by him and certain of the Group's bank borrowings are secured by pledges of the mining rights, equity interests in Guizhou Puxin and Guizhou Dayun Mining Co., Ltd. and one time deposit. As at 30 June 2014, loan amounting to CNY1,144.6 million carried interest at fixed rate ranging from 6.16% to 8.40% per annum.

Pledge of Assets of the Group

As at 31 December 2013 and 30 June 2014, certain mining rights with carrying amounts of CNY798.7 million and CNY503.0 million, respectively were pledged to secure bank loans with carrying amounts of CNY485.9 million and CNY432.6 million, respectively.

As at 31 December 2013 and 30 June 2014, the amount of outstanding bank borrowings that were guaranteed by Mr. LI Feilie were CNY658.5 million and CNY706.3 million, respectively and the amount of outstanding bank borrowings that were guaranteed by fellow companies controlled by Mr. LI Feilie were CNY1,073.5 million and CNY1,221.3 million, respectively.

Capital Commitments

As at 30 June 2014, the Group had contractual capital commitments in respect of coal mine under construction and development amounting to CNY79.3 million.

Contingent Liabilities

As at 30 June 2014, except for the bank borrowings, the Group did not have any loan capital or debt securities issued or agreed to be issued, outstanding bank overdrafts and liabilities under acceptances or other similar indebtedness, debentures, mortgages, charges or loans or acceptance credits, finance leases or hire purchase commitments or guarantees or material contingent liabilities.

Gearing Ratio

As at 31 December 2013 and 30 June 2014, the gearing ratio (which is calculated by dividing total interestbearing debt by total capital at the end of the year/period and multiplying by 100%) was 88.7% and 94.3%, respectively. The gearing ratio increased in 2014 as the Group increased interest-bearing borrowings to support the growth of business and finance the capital expenditure.

INTERIM DIVIDEND

In order to retain resources for the Group's business development, the Board does not declare an interim dividend for the six months ended 30 June 2014 (six months ended 30 June 2013: Nil).

EMPLOYEES AND REMUNERATION POLICIES

As at 30 June 2014, the Group employed approximately 255 full time employees (not including 1,544 workers provided by third party labour agencies) for its principal activities. Employees' costs (including Directors' emoluments) amounted to CNY61.2 million (including payment to workers provided by third party labour agencies) for the six months ended 30 June 2014 (six months ended 30 June 2013: CNY48.5 million). The Group recognizes the importance of high calibre and competent staff and continues to provide remuneration packages to employees with reference to prevailing market practices and individual performance. Other various benefits, such as medical and retirement benefits, are also provided. In addition, share options may be granted to eligible employees of the Group in accordance with the terms of the share option scheme adopted by the Company.

SUBSEQUENT EVENTS

There are no material subsequent events for the Group.

PROSPECTS

It is expected that the coal oversupply situation in the PRC would begin to ease, and coal prices and coal production would become gradually steady going forward, as the enterprises with lower production capacity have been shut down by the government, and the advantage of import coal price has been weakened. Once the upgrade of the power plants in Guizhou have been completed, we expected that it will have a positive impact on the Group. Nevertheless we believe that the coal market in the PRC still faces with certain unstable and uncertain issues and the downward pressure on the economy will remain in the near future.

AUDIT COMMITTEE

The Company has an audit committee ("Audit Committee") which was established in accordance with the requirements of the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange (the "Listing Rules") for the purposes of reviewing and providing supervision over the Group's financial reporting process and internal controls. The Audit Committee comprises three independent non-executive Directors. The members of the Audit Committee are Mr. LO Kin Cheung, Mr. HUANG Zuye and Mr. HUANG Songzhong. The Audit Committee meets regularly with the Company's senior management and the Company's auditors to consider the Company's financial reporting process, the effectiveness of internal controls, the audit process and risk management. The Audit Committee has reviewed the Group's unaudited condensed financial statements for the six months ended 30 June 2014.

The interim condensed financial statements of the Group for the six months ended 30 June 2014 had not been audited, but had been reviewed by the Company's auditors, Ernst & Young, in accordance with Hong Kong Standards on Review Engagements 2410.

APPRECIATION

On behalf of the Board, I would like to take this opportunity to express our gratitude to all the staff for their devoted efforts and hard work.

By Order of the Board **Feishang Anthracite Resources Limited LI Feilie** *Chairman and Chief Executive Officer*

Hong Kong, 29 August 2014

Save as disclosed above, as at 30 June 2014, none of the Directors or chief executives of the Company had any interests or short positions in the shares, underlying shares and debentures of the Company and its associated corporations (within the meaning of Part XV of the SFO) which are required to be notified to the Company and the Hong Kong Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests or short positions which they were taken or deemed to have under such provisions of the SFO), or are required, pursuant to Section 352 of the SFO, to be entered in the register referred to therein, or as otherwise notified to the Company and the Hong Kong Stock Exchange pursuant to the Model Code.

DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES OF THE COMPANY AND OTHER CORPORATION

Other than the share option as disclosed under the heading of "Share Option Scheme of the Company" below, at no time during the period under review was the Company, its holding company, or any of its subsidiaries or fellow subsidiaries, a party to any arrangements to enable the Directors to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, and neither the Directors nor the chief executive, nor any of their spouses or children under the age of 18, had any right to subscribe for the securities of the Company, or had exercised any such right.

CORPORATE GOVERNANCE PRACTICES

Since the date of listing of the Company on 22 January 2014 (the "Listing Date") and up to 30 June 2014, the Company has complied with the code provisions as set out in the Corporate Governance Code (the "CG Code") contained in Appendix 14 of the Listing Rules, save and except for code provision A.2.1, as set out below.

Chairman and Chief Executive

Mr. LI Feilie is the chairman and chief executive officer of the Company. He is mainly responsible for the Group's overall strategies, planning, management and business development. Code provision A.2.1 of the CG Code stipulates that the roles of the chairman and chief executive should be separate and should not be performed by the same individual. The Company deviates from this code provision of the CG Code with Mr. LI Feilie being the chairman and chief executive officer of the Company concurrently. The Board considers this arrangement is appropriate as it allows for efficient discharge of the executive functions of the chief executive officer. The Board believes that the balance of power and authority is adequately ensured by the operations of the Board which comprises experienced and high-calibre individuals including three independent non-executive Directors offering independent advice from different perspectives. In addition, major decisions are made after consultation with the Board and appropriate Board committees, as well as senior management. The Board is therefore of the view that there are adequate balance and safeguards in place.

Attendance of Chairmen of Board Committees at General Meeting

Code provision E.1.2 stipulates the chairman of the board should attend the annual general meeting. He should also invite the chairmen of the audit, remuneration, nomination and any other committees (as appropriate) to attend. In their absence, he should invite another member of the committee or failing this his duly appointed delegate, to attend. Mr. HUANG Zuye, chairman of the Nomination Committee, as well as Mr. GU Jianshe, former chairman of the Remuneration Committee and Corporate Social Responsibility Committee, did not attend the annual general meeting of the Company held on 30 May 2014 due to travel document issue.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules as the code of conduct regarding securities transactions by the Directors. Having made specific enquiry of all Directors, the Company confirmed that since the Listing Date and up to 30 June 2014, all the Directors have complied with the required standard set out in the Model Code.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SHARES

There was no purchase, sale or redemption of the Company's listed shares by the Company or any of its subsidiaries since the Listing Date and up to 30 June 2014.

DISCLOSURE OF CHANGE OF DIRECTORS' INFORMATION

Pursuant to Rule 13.51B(1) of the Listing Rules, the changes and updated Directors' information are as follows:-

Mr. GU Jianshe resigned as the independent non-executive Director, a member of the audit and nomination committees, and the chairman of the remuneration and corporate social responsibility committees of the Company on 15 July 2014 and was succeeded by Mr. HUANG Songzhong on the same date.

Save as disclosed above, the Directors are not aware of other change in the Directors' information required to be disclosed pursuant to Rule 13.51B(1) of the Listing Rules since the date of the 2013 Annual Report of the Company.

SHARE OPTION SCHEME OF THE COMPANY

A share option scheme was adopted by shareholders of the Company on 23 December 2013 ("Date of Adoption") (the "Share Option Scheme"), under which the Board may, at its discretion, offer any Eligible Persons (as hereinafter defined) options to subscribe for shares in the Company (the "Shares") subject to the terms and conditions stipulated therein. The Share Option Scheme is valid and for an effective period of 10 years from the Date of Adoption. The Share Option Scheme is an incentive scheme and is established to enable the Group to recognise the contribution that certain individuals have made to the Company, to attract and retain the best available personnel and to promote the success of the Company's business and that of its subsidiaries. The Eligible Persons include any (a) any employee, director or consultant of the Company or any subsidiary; or (b) any other person who has contributed to the success of the listing of the Company on the Hong Kong Stock Exchange, in each case, as determined by the Board. The eligibility of an Eligible Person will be determined by the Board with reference to his or her past and expected commitment and contribution to the Company and/or the subsidiaries.

The share options are exercisable at any time for a period to be determined by the Directors, which shall not be more than 10 years from the offer date. The minimum period for which a share option must be held before it can be exercised would be determined by the Board.

The total number of Shares in respect of which options may be granted under the Share Option Scheme is not permitted to exceed 10% of the Shares in issue on the Date of Adoption ("Scheme Mandate Limit"), unless approved by the Company's shareholders. The Company may seek approval of its shareholders in general meeting to renew the Scheme Mandate Limit provided that the total number of Shares in respect of which options may be granted under the Share Option Scheme and any other share option schemes of the Company must not exceed 10% of the Shares in issue as at the date of approval to renew the Scheme Mandate Limit. The number of Shares in respect of which options may be granted to exceed 1% of the Shares in issue at any point in time, unless approved by the Company's shareholders. In addition, the number of Shares in respect of which options may be granted to any Eligible Person in any 12-month period is not permitted to exceed 1% of the Shares in respect of which options may be granted to any Eligible Person in any 12-month period is not permitted to exceed 1% of the Shares in respect of which options may be granted to any Eligible Person (who is a substantial shareholder or an independent non-executive Director of the Company, or any of their respective associates (within the meaning as ascribed under the Listing Rules)) in any 12-month period is not permitted to exceed 0.1% of the total number of Shares in issue and HK\$5,000,000 in an aggregate value, based on the closing price of the Shares at the date of each grant, unless approved by the Company's shareholders.

The subscription price for the Shares under the Share Option Scheme shall be a price determined by the Board at its sole discretion and notified to the Eligible Persons (subject to any adjustments made pursuant to the terms and conditions of the Share Option Scheme) and shall be the higher of (i) the closing price of the Shares as stated in the Hong Kong Stock Exchange's daily quotations sheet on the offer date, (ii) the average closing prices of the Shares as stated in the Hong Kong Stock Exchange's daily quotation sheets for the five trading days immediately preceding the offer date; and (iii) the nominal value of a Share.

Consideration of HK\$1 is payable by each Eligible Person for the grant of option.

As at 30 June 2014, no options were granted or agreed to be granted since the Date of Adoption. A total of 12,455,458 Shares (representing approximately 10% of the existing issued share capital of the Company) as at the date of this report, may be issued upon exercise of all options which may be granted under the Share Option Scheme.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the board of directors of Feishang Anthracite Resources Limited

(Incorporated in the British Virgin Islands with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 18 to 44, which comprise the interim condensed consolidated statement of financial position of Feishang Anthracite Resources Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") as at 30 June 2014 and the related interim condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended and certain explanatory notes. The Main Board Listing Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") issued by the International Accounting Standards Board. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with IAS 34. Our responsibility is to express a conclusion on this financial information based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with IAS 34.

1. CORPORATE INFORMATION

The Company is a limited liability company incorporated in the British Virgin Islands ("BVI") on 6 January 2010. The registered office address of the Company is P.O. Box 173, Kingston Chambers, Road Town, Tortola, BVI.

China Natural Resources, Inc. ("CHNR") is a BVI holding company incorporated in 1993 with its shares listed on the NASDAQ Capital Market in the United States. The Company was a wholly-owned subsidiary of CHNR until CHNR completed the spin off ("Spin-off") of its shareholding in the Company and the Company was listed by introduction on the Main Board of The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange") on 22 January 2014. After the Spin-off, CHNR's shareholders hold the equity interest in the Company directly.

CHNR's principal shareholder is Feishang Group Limited ("Feishang" or the "controlling shareholder"), a company incorporated in the BVI. Mr. Li Feilie, the director and beneficial owner of Feishang, is the chairman and chief executive officer of the Company. In the opinion of the Directors, the ultimate holding company of the Company is Laitan Investments Limited, a company incorporated in the BVI.

The Company is an investment holding company. During the period, the Company's subsidiaries were engaged in the acquisition, construction and development of anthracite coal mines and extraction and sale of anthracite coal in the People's Republic of China (the "PRC").

As at 30 June 2014, the Group had net current liabilities of CNY1,692.4 million (31 December 2013: CNY1,168.2 million) and total assets less current liabilities of CNY954.9 million (31 December 2013: CNY1,441.6 million).

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" issued by the International Accounting Standards Board ("IASB") as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

The interim condensed consolidated financial statements have been prepared on historical cost basis. These financial statements are presented in Chinese Yuan ("CNY") and all values are rounded to the nearest thousand except when otherwise indicated.

For the six months ended 30 June 2014

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2013.

Except as described below, the accounting policies and methods of computation used in the interim condensed consolidated financial statements for the six months ended 30 June 2014 are the same as those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2013.

Significant accounting policies

In the current interim period, the Group has applied, for the first time, the following new and revised International Financial Reporting Standards ("IFRSs") issued by IASB:

IFRS 10, IFRS 12 and IAS 27	Amendments to IFRS 10, IFRS 12 and IAS 27 (Revised) –
(Revised) Amendments	Investment Entities
IAS 32 Amendments	Amendments to IAS 32 Financial Instruments: Presentation –
	Offsetting Financial Assets and Financial Liabilities
IAS 36 Amendments	Amendments to IAS 36 Impairment of Assets – Recoverable
	Amount Disclosures for Non-Financial Assets
IAS 39 Amendments	Amendments to IAS 39 Financial Instruments: Recognition and
	Measurement – Novation of Derivatives and Continuation of
	Hedge Accounting
IFRIC 21	Levies

Saved as discussed below, the application of the above new and revised IFRSs in the current interim period has had no material effect on the amounts reported in these interim condensed consolidated financial statements and/or disclosures set out in these interim condensed consolidated financial statements.

The IAS 36 Amendments remove the unintended disclosure requirement made by IFRS 13 on the recoverable amount of a cash-generating unit which is not impaired. In addition, the amendments require the disclosure of the recoverable amounts for the assets or cash-generating units for which an impairment loss has been recognised or reversed during the reporting period, and expand the disclosure requirements regarding the fair value measurement for these assets or units if their recoverable amounts are based on fair value less costs of disposal.

For the six months ended 30 June 2014

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES (continued)

Going concern

As of 30 June 2014, the Group had a working capital deficiency of CNY1,692.4 million and had undrawn loan facilities totalling CNY180.0 million available to finance its future operations. The Group obtained confirmation letters from the banks for the provision of loan facilities totalling CNY1,950.0 million pursuant to certain conditions.

In the opinion of the directors, the Group's forecasts and projections, after taking account of reasonably possible changes in trading performance, operations as well as capital expenditure, and the available bank facilities support the Group's ability to continue to operate within the level of its current capacity and the Group is expected to have sufficient liquidity to finance its operations for the next twelve months. Therefore, the financial statements have been prepared on a going concern basis. The going concern basis assumes that the Group will continue in operation for the foreseeable future and will be able to realise its assets and discharge its liabilities and commitments in the normal course of business.

Comparative information

Certain items in the consolidated financial statements have been reclassified to conform to the current period's presentation to facilitate comparison.

3. OPERATING SEGMENT INFORMATION

For management purposes, the Group operates in one business unit based on its products, and has only one reportable segment which is the exploration and mining of coal. The Group conducts its principal operation in the PRC. Management monitors the operating results of its business units as a whole for the purpose of making decisions about resources allocation and performance assessment.

Geographic information

The Group's revenue from external customers is derived solely from its operation in Mainland China, and no non-current assets of the Group are located outside Mainland China.

Information about major customers

During the six months ended 30 June 2014, sales derived from two customers accounted for 25.3% and 24.0% of the consolidated revenue, respectively. During the six months ended 30 June 2013, sales derived from four customers accounted for 24.5%, 18.7%, 13.6% and 11.6% of the consolidated revenue, respectively.

For the six months ended 30 June 2014

4. **REVENUE**

All of the Group's revenue is derived solely from the sales of anthracite in Mainland China.

Classification in the consolidated statements of financial position:		
Deferred tax assets	13,112	9,830
Deferred tax liabilities	(196,779)	(216,320)

In assessing the recoverability of the Group's deferred tax assets, management has performed a detailed assessment on the available taxable temporary differences relating to the same taxation authority and the same taxable entity, which will result in taxable amounts against which the deductible temporary differences and unused tax losses can be utilised before they expire. In addition, management has also performed a detailed assessment on these coal mining subsidiaries' profitability based on their production plans, product mix, forecasted selling prices, and the related production and operational costs, of which strong profits are expected.

Accordingly, management considered it is probable that the Group, in future, will earn sufficient taxable profits to utilise these coal mining subsidiaries' deductible temporary differences and unused tax losses before they expire and as such, the related deferred tax assets are recognised.

Pursuant to the resolutions in writing passed by the Directors on 6 December 2013, the Company increased its authorised share capital under which it may issue an aggregate of: (i) a maximum of 50,000 ordinary shares of one class with a par value of US\$1.00 each; and (ii) a maximum of 1,000,000,000 ordinary shares of one class with a par value of HK\$0.01 each (the "Listco Shares"), pursuant to which CHNR completed the subscription for 124,554,580 Listco Shares of the Company with a par value of HK\$0.01 each at a total consideration of HK\$98.4 million. The transaction was completed on 12 December 2013. Subsequently on 12 December 2013, the Company repurchased the one share with a par value of US\$1.00 in the Company held by CHNR at par and simultaneously, the Company reduced its authorised but unissued share capital by the cancellation of the entire class of 50,000 ordinary shares with a par value of US\$1.00 each. The weighted average number of ordinary share for the six months ended 30 June 2013 has been adjusted retroactively to reflect the impact of the bonus element of the issue of shares in December 2013.

The Company did not have any potential diluted shares throughout the period. Accordingly, the diluted loss per share amount was the same as the basic loss per share amount.

11. DIVIDEND

No dividend has been paid or declared by the Company since its incorporation.

For the six months ended 30 June 2014

12. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2014, the additions of property, plant and equipment (excluding transferred from construction in progress) and construction in progress amounted to CNY17.7 million (six months ended 30 June 2013: CNY27.3 million) and CNY99.9 million (six months ended 30 June 2013: CNY124.2 million), respectively.

As at 30 June 2014, certain mining rights with a carrying amount of CNY503.0 million (31 December 2013: CNY798.7 million) were pledged to secure bank loans with a carrying amount of CNY432.6 million (31 December 2013: CNY485.9 million) (note 20).

As at 30 June 2014, certain buildings with a carrying amount totalling CNY64.0 million were without title certificates. The Group has obtained the relevant confirmation letters issued by the local authorities confirming that they will not impose any penalties in connection with the construction of these buildings, and that the Group may continue to use these buildings in accordance with the current uses. The Directors are of the view that the Group is entitled to lawfully and validly occupy and use the above-mentioned buildings. The directors of the Company are also of the opinion that the aforesaid matters do not have any significant impact on the Group's financial position as at 30 June 2014.

Interest expenses of CNY9.7 million (six months ended 30 June 2013: CNY20.4 million) (note 5) arising from borrowings attributable to the construction of property, plant and equipment were capitalised at annual rates varying 6.00% to 8.52% and were included in "additions" to construction in progress and mining rights during the six months ended 30 June 2014.

Operations have been temporarily suspended at Dayuan Coal Mine since June 2014 to carry out rectification of certain safety deficiencies or related improvement so as to ensure its mining operations are in compliance with the requisite safety standards and other conditions required by relevant Administration Bureaus of Work Safety in the PRC. Dayuan Coal Mine was designated as a single Cash Generating Unit ("CGU"). The carrying value of the long-term assets was compared to the recoverable amount of the CGU, which was based predominantly on the fair-value-less-costs-of-disposal ("FVLCD") approach. FVLCD calculations use pre-tax cash flow projections. Other key assumptions applied in the impairment tests include the production volume, expected coal price, coal product mix, product cost and related expenses. Management determined that these key assumptions were based on past performance and their expectations on market development. Further, the Group adopted a pre-tax rate of 13.12% (six months ended 30 June 2013: 15.05%) that reflects specific risks related to CGU as discount rates. For the six months ended 30 June 2013: CNY184.4 million) was recognised for Dayuan Coal Mine in the condensed consolidated statement of profit or loss.

For the six months ended 30 June 2014

13. REHABILITATION FUND

The rehabilitation fund represents restricted cash set aside by the Group in banks and cash placed with authorities for the purpose of future environmental rehabilitation as well as the settlement of asset retirement obligations.

More than one year past due	102	44
Trade receivables, net	96,345	57,149

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, the directors are of the opinion that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable.

Bills receivable are bills of exchange with maturity of less than one year.

CNY	203,745	116,029
Hong Kong dollar	26,219	55,718
	229,964	171,747

Cash and cash equivalents are principally CNY-denominated deposits placed with banks in the PRC. The CNY is not freely convertible into other currencies, however, under the PRC's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange CNY into other currencies through banks authorised to conduct foreign exchange business.

Cash at bank earns interest at floating rates based on daily bank deposit rates. Short-term time deposits are made for varying periods of between one day and three months depending on the immediate cash requirements of the Group, and earn interest at respective short-term deposit rates. The bank balances and pledged deposits are deposited with creditworthy banks with no recent history of default.

Notes:

- (1) Operations have been suspended at Gouchang Coal Mine since March 2013 pending the contemplated acquisition by the Group of a nearby coal mine and Gouchang Coal Mine achieving certain production capacity targets in accordance with Guizhou province's coal mine consolidation policy.
- (2) Operations have been suspended at Dayuan Coal Mine since June 2014 pending the passing of verification and acceptance procedures conducted by the Nayong County Administration Bureau of Work Safety.
- (3) Operations have been suspended at Liujiaba Coal Mine and Zhulinzhai Coal Mine since June 2014 pending the passing of inspection and assessment procedures conducted by relevant coal mine regulatory authorities.
- (4) This represents the annual production capacity as permitted under the relevant mining rights permits.
- (5) The reserve data as of 31 July 2013 is extracted from competent person's report dated 7 December 2013 prepared by Behre Dolbear Asia, Inc. under the JORC Code.
- (6) The reserve data as of 30 June 2014 has been adjusted by deducting those reserves extracted by the Group's mining activities from August 2013 to June 2014 from the proved reserve figure as of 31 July 2013.
